IV. Technical FAQ's:

1. I am having problems attaching documents. I keep getting an error message. What is wrong?

- A. ECF will generally provide an error message when there is a problem with the PDF document you are trying to attach. The message may indicate the PDF size is too large, it's not a PDF formatted document, the PDF may be malformed, or the PDF is damaged. If the size is too large, you must re-create the PDF into a smaller size. If the message indicates it's not a PDF formatted document, you did not properly create the PDF document. If the messages is related to the malformed or damaged PDF, there may

be a number of reasons for the error. In most cases, customers have used the "convert to PDF" icon found on the toolbar in the word processing software. You should try to re-create the PDF by using the **File > Print** (selecting the PDF software as the printer) process to create the PDF. 2. How do I convert my document to a PDF document?

- A. All documents uploaded into ECF must be in a PDF document format. Adobe Acrobat as well as other third party products will allow you to create a PDF document. If you still have difficulty creating the PDF document, you should contact your local computer administrator for assistance, or contact the help desk at 303/335-2050.

3. What is cache and why do I need to clear it out? How do I clear it?

- A. Browsers (i.e. Internet Explorer, Chrome, Firefox, Safari) are applications used to access the internet and ECF. When using a browser, the browser software is designed to save web pages which allows you to click on the forward/back navigation buttons to re-display screens. Cache is also known as Temporary Internet Files. These Temporary Internet files will build up and may affect the speed of the browser process and inadvertently display old pages of information. Thus, it is a good idea to clear the browser's cache file. There are different versions of all the browsers mentioned and with each new version, the process to clear cache will be different. For example, under Version 7 of Internet Explorer, **click on tools, > delete browsing history >** and select **delete all**. You will receive a **pop-up box** that asks if you **are sure you want to delete?** In the pop-up box, **check** the box that **asks about deleting files and settings stored by add-ons** and then **click yes**. Once you have gone through this process, attempt your filing , etc. once again in ECF. If you continue to have problems, please contact the help desk at 303/335-2050.

The document hyperlink in the NEF will expire after the first use or after **14 days**. Any time the hyperlink is accessed after it has expired, the user will be charged PACER fees to view the document. All users are advised to save or print the document during the initial viewing period to avoid future charges.
